Mathematical
Society

Spitalfields Day

School of Mathematics, Lecture Room M/0.40
Cardiff University

Monday 17 May 2010, 2.00 pm

Operator Algebras and Physics

Terry Gannon (Alberta)

Nigel Higson (Penn State)

This Spitalfields Day is organised in connection with a EU-RTN programme in Cardiff on noncommutative geometry. The talks by internationally leading experts are centered around recent developments in the theory of noncommutative geometry, index theory, modular invariants and related areas.

These lectures are aimed at a general mathematical audience. All interested, whether LMS members or not, are most welcome to attend this event.

For further details, or to register email the organisers David Evans EvansDE@cf.ac.uk or Mathew Pugh PughMJ@cf.ac.uk.

Nigel Higson will continue during the week with a series of talks.

<http://www.cardiff.ac.uk/math/subsites/opalg/eu-ncg/fs6.html>

There are funds available to contribute in part to the expenses of research students to attend the day. Requests for support, including an estimate of expenses, may be addressed to the organisers by 10 May. There will be a buffet lunch from 12.30.

The London Mathematical Society is the UK's learned society for mathematics. Founded in 1865 for the promotion and extension of mathematical knowledge, the Society has a membership of over 2500 drawn from all parts of the UK and overseas. Its principal activities are the organisation of meetings and conferences, publication of journals and books, provision of financial support for mathematical activities, and contribution to public debates on issues related to mathematics, research and education.

London Mathematical Society, De Morgan House, 57-58 Russell Square, London WC1B 4HS.
